CondenCide®

Coil cleaner & disinfectant

Special Features

· Quickly removes dirt, slime and mould buildup leaving behind a fresh, pleasant scent

Bacteria and other microbes growing on evaporator coils are a source of bad odours, allergic reactions and spread diseases. CondenCide® will thoroughly clean and disinfect coils and trays in air conditioning and refrigeration systems. The CondenCide® formulation includes QX-60® - a high-strength disinfectant that kills 99.999% of bacteria under 60 seconds. This gives extra reassurance that the unit is safe and clean. When used as directed, CondenCide® will control bacteria – including Legionella pneumophila, Salmonella typhimurium, Staphylococcus aureus, Pseudomonas aeruginosa, Escherichia coli and Aspergillus niger. CondenCide® is safe to use where a condensate pump is fitted.

PRODUCT SPECIFICATION

Name	CondenCide®
Product Code	S010166GB, S010165GB
Packing Quantity	4 x 5l Litre, 1 x 20 Litre
Packing Size (L x H x D cm)	40 x 30 x 27
Shipping Weight (kg)	22.32, 22.32
Shipping Volume (m³)	0.0324, 0.0267
Soils	Dust, bacteria, mould, slime

Directions of use

Dilute 1 part CondenCide® with 6 parts water. Turn off unit and isolate electrics. Apply diluted CondenCide® with a low pressure sprayer set on a coarse spray pattern. Saturate areas to be cleaned and keep wet for 5 minutes.

Contaminated CondenCide® will drain away as normal condensate. After cleaning, flush thoroughly with fresh water. Let surfaces air dry before re-starting system.

To prevent the return of mould and unpleasant smells, an antibacterial coating such as Advanced Engineering Guardian® should be sprayed onto the coil following a clean. Use CondenCide® in line with normal maintenance schedule.

Disposal

Product: Incineration on land

Container: Clean with water. Dispose of as normal industrial waste. Do not reuse empty container.

Store upright in a cool, dry place.

CondenCide® **UN1903 Danger**

H314: Causes severe skin burns and eye damage. P261: Avoid breathing spray. P262: Do not get in eyes, on skin, or on clothing. P280: Wear protective gloves/protective clothing/eye protection/face protection. P303+361+353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P304+340: IF INHALED: Remove person to fresh air and keep comfortable for breathing P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Preparation Type

Liquid concentrate

Biocides

Di-n-decyl dimethylammonium chloride, 5.679 g/100g

Use biocides safely. Always read the label and product information before use.

This product should only be used by trained operatives. The "directions for use" are recommendations only; correct use will depend upon circumstances. To the extent permitted, no liability can be accepted for loss resulting from its use. Advanced Engineering follows a policy of continual product improvement. For this reason, some materials and specifications could change without notice. Consult Safety Data Sheet for full safety information. Always wear suitable PPE.
